SUMMARY

Product-focused engineer with ability to lead cross-functional teams and wear multiple hats, from building multi-agent AI systems, to driving GTM strategy and Developer Relations. I want to work with teams that, in Scott McNealy's words, "*kick butt, have fun, don't cheat, love their customers, and change computing forever*".

WORK EXPERIENCE

Producta.ai

Jun 2024 - Mar 2025

CTO, Co-Founder

Remote

- Producta was an AI system to create PRs directly from Linear/Jira tickets. ProductHunt's top 3.
- Built end-to-end state of the art multi-agent system that outperformed tools like Cursor, and its debugging infrastructure. (React + Vite and Python for AI engineering).

Zuplo

May 2023 - Jun 2024

Founding Developer Relations

Remote

- Zuplo is a 9M\$, seed-round API Gateway company, with customers like Accuweather and Blockdaemon.
- Led Go-To-Market (partnerships, ads, content, conference, etc) resulting in 200% increased paid registrations for the product.
- Supported our customers' technical problems; built and launched open-source tooling in the AI space like Rate-My-OpenAPI, and wrote thought leadership content in the API space.

Kubeshop

Nov 2021 - May 2023

Product Leader

Remote

- I led product, marketing and engineering (15 reports), building open-source dev-tools like Testkube (now Series A), a Kuberentes-native test runner; and Kusk, an OpenAPI-centric API Gateway.

GreenMobility

Oct 2019 - Nov 2021

Fullstack Developer

Copenhagen, Denmark

- Shaped our platform from 0 to 1, building tightly coupled backend and frontend, on serverless infrastructure like Cloud Run and Google Cloud.
- Built data ingestion systems collecting millions of data per minute and internal portals to manage our fleet of 600 cars and rolled multiple features to 200k customers.
- Tools: GraphQL, Node.js, Next.js, Cloud Run, Google Cloud.

Google

Sept 2018 - Oct 2019

Developer Relations

Madrid, Spain

- Managed relationships with 65 developer communities and helped to create 15 new ones in Europe.
- Execute regional outreach and support programs, including large-scale public and online events.
- Lead training in European universities with 800 students.
