## WORK EXPERIENCE

---

### Producta.ai

*CTO, Co-Founder*

Jun 2024 - Mar 2025

*Remote*

- Built our agentic AI system to create pull requests directly from Linear/Jira tickets. Reached ProductHunt's top 3 of the day, and talked to thousands of companies before shutting down.

### Zuplo

*Founding Developer Relations*

May 2023 - Jun 2024

*Remote*

- Lead Go-To-Market and Developer Advocacy efforts at Zuplo.
- Set up our analytics infra to track attribution & conversions .
- Lead partnerships resulting in significant paid signups to the product.
- Lead our paid ads, SEO and content strategy and coordinating vendor writers.
- Organized conference attendance, creating reproducible tactics to land deals.

### Kubeshop

*Product Leader*

Nov 2021 - May 2023

*Remote*

- Kubeshop is an accelerator of Open Source startups in the Kubernetes ecosystem. I have led the eng team and go-to-market of kusk.io and shaped the roadmap of testkube.io.

### GreenMobility

*Fullstack Developer*

Oct 2019 - Nov 2021

*Copenhagen, Denmark*

- Serving 200k customers with a fleet of electric car sharing service.
- Shaped our platform from 0 to 1 in backend and frontend.

### Google

*Developer Relations*

Sept 2018 - Oct 2019

*Madrid, Spain*

- Managed relationships with 65 developer communities and fostered creation of 15 new ones in Europe.
- Execute regional outreach and support programs, including large-scale public and online events.
- Lead a training program on Google technologies with 800 students around European universities.

## EXTRACURRICULAR

---

### Community Organizer

Organized from weekly meetups to 1k attendee events involving university and government resources.

### Open Source Projects

- Kusk Gateway: a Kubernetes Ingress Controller driven by OpenAPI.
- Rate My OpenAPI: Upload an OpenAPI document, get a rating à la web vitals.

## SKILLS

---

### Stacks & Tools

Deno/Nodejs, serverless, Kubernetes, React, GraphQL/OpenAPI
