Abdallah Abedraba

Seville • +34611159343 • a@abedraba.com • linkedin.com/in/aabedraba

Software engineer with 8+ years building production systems at scale (200k+ users). Experience spanning IC roles to leading 10-person teams. Proven track record in developer tools, API infrastructure, and open-source projects.

Skills: Docker, GCP/AWS, Kubernetes, Serverless, GraphQL/REST, Next.js, Node, PostgreSQL, React, TypeScript

WORK EXPERIENCE

Producta.ai   06/2024 - 11/2025
CTO, Co-Founder   Seville, Spain (Remote)

- Built AI coding agent with novel multi-agent architecture replacing RAG with file summarization and layered code search; improved PR success rate from 50% to 80%.
- Architected agentic pipeline: input validation layer, multi-stage code search, expert model routing for complex tasks, and automated PR generation with GitHub integration.
- Designed zero-dashboard product living entirely in Linear/GitHub; reached ProductHunt #3 and engaged 1000+ companies before pivoting based on market feedback.

Zuplo   05/2023 - 06/2024
Staff Developer Relations   Dubai, UAE (Remote)

- Built open-source Rate-My-OpenAPI tool (400 stars, +10k reports generated).
- Led Supabase integration building API key auth, rate limiting, and documentation features; resulted in 2x paid registrations.
- Led Go-To-Market strategy including conferences, partnerships, paid ads, and technical content.

Kubeshop   11/2021 - 05/2023
Product Leader   Dubai, UAE (Remote)

- I led engineering (10 reports), technical roadmap and architecture discussions, building open-source dev-tools like Testkube (Kubernetes test runner) and Kusk (API Gateway).
- Built serverless API gateway, matching Kusk feature parity in 1 month solo (vs. 8 months, 4-engineer team); extensive research into V8 isolates and edge architectures.

GreenMobility   10/2019 - 11/2021
Fullstack Developer   Copenhagen, Denmark

- I architected and built our platform from the ground up, delivering 2 consumer applications and scaling high-throughput systems (2M events per day) on serverless infrastructure.
- Shipped features daily to 200k customers and built internal portals to manage fleet of 600 cars.

Google   09/2018 - 10/2019
Developer Relations   Madrid, Spain

- Led training in European universities with 800 students, giving workshops on Google Cloud.
- Managed relationships with 65 developer communities in Europe with thousands of members, with 1-on-1 meetings to discuss needs and funding; and helped to create 15 new communities.

EDUCATION

BS Computer Science
Universidad de Jaen   09/2015 - 07/2018
